BEAUMONT FIELD OIL REFINERIES.

D. R. Beatty Says They Will Work a Revolution in the Oil Market.

D. R. Beatty of Beaumont, Tex., who is a guest of the Planters Hotel, says the refining plants now building and those already contracted for, will revolutionize the oil market in Beaumont's standing in the world.

"Somehow," said Mr. Beatty last night, "the erroneous impression has got around that our oil is good for nothing but fuel purposes. This is far from the truth. It has been demonstrated that the Texas product contains at least 90 per cent of a high grade of illuminating oil, and the cost of refining is more than paid for by the residue."

Mr. Beatty stated that the refinery of the Gulf and Galy Company, at Port Arthur, is nearing completion, and will be one of the largest in the world, costing more than \$1,000,000 and giving employment to nearly 500 men. And at Beaumont the new refinery of Burt & Co. of New York will be finished in a short time. Two other refineries, to be built by Chicago capitalists, have been contracted for and soon will be erected.

"Because the price of Texas oil is so low at present," said Mr. Beatty, "some persons imagine there is no market for it. They will be convinced the contrary. It requires time to develop an industry as gigantic as this one is, and stockholders are unreasonable in expecting dividends at once."

"In this connection," Mr. Beatty continued, "the very fact of the enormous flow of Texas oil into the world, costing more than \$1,000,000 and giving employment to nearly 500 men, and the fact that the Texas product contains at least 90 per cent of a high grade of illuminating oil, and the cost of refining is more than paid for by the residue."
